

Chalfont Cord Product description

Chalfont Cord carpet tile is a robust heavy contact fibre bonded product in a range of 12 practical colourways. Chalfont Cord is manufactured of a dense Needlefelt construction in hardwearing polypropylene, which gives it its excellent thermal and acoustic properties; plus its great reputation for durability and longevity. All of these reasons make Chalfont cord excellent choice for installations requiring a practical hardwearing carpet that is in expensive and great value for money, which is the reason, it a popular choice for public authorities and developers. Chalfont cord can be laided quarter turn or broadloom thus creating an attractive visual finish once installed.

Chalfont cord is a standard stock product and part of our fast track delivery service. Delivery is available through a net work of dealers through out the United Kingdom, or via our website @ www.flooringindustries.co.uk
