

Dahlia Product Description

Dahlia carpet tiles are of a low loop pile construction in 12 practical colourways. Dahlia is a low cost heavy commercial carpet tile designed for the developer office fit out market where cost and performance are key areas of the design criteria. Dahlia is formulated in dense low loop construction, and is suitable for use in the most highly trafficked areas. Dahlia can be laid broadloom; or recommended quarter turn thus creating an attractive visual finish once installed. The product is manufactured from highly durable solution dyed polyamide yarn, with good soil hiding properties, making the product a highly suitable carpet tile for a broad range of commercial and public locations where cost and performance is critical.

Dahlia is a standard stock product and readily available for delivery being supplied to a net work of dealers through out the United Kingdom, via our website @ www.flooringindustries.co.uk
